Dan RÂPĂ-BUICLIU

The author publishes, in two distinct sections, a group of modern historical documents (administrative documents, official and private correspondence) concerning several political and cultural personalities (the Reigning Princes Grigore Alexandru Ghica, Alexandru Ioan I Cuza, the Reigning Princess Elena Cuza, the academician and senator Vasile Alexandrescu-Urechia).

The archive material originates from the History Museum of Galați and from V. Alexandrescu-Urechia Library, of Galați, constituting a documentary supplement which fills some gaps in the biographies of several personalities; the second section includes sigillographic representations from medieval and modern times, pertaining to various dignitaries and administrative institutions.
