

***TREI BRĂZDARE DE ARATRU CUCUTENIENE DESCOPERITE ÎN  
REGIUNEA DE SUD A MOLDOVEI***

***THREE CUCUTENIAN PLOUGHSHARES DISCOVERED IN THE  
SOUTHERN PART OF MOLDAVIA***

*Ion T. DRAGOMIR*

The article describes three ploughshares, made of horn, discovered in the important Neolithic site from “Dealul Bulgarului”, belonging to Cucuteni culture. The three items are not only described, but also analyzed in the broad context of the evolution of the agricultural tools all over the world, during the prehistoric times.
